Notice to Property Owner

****Temporary Traffic Pattern Change to Gold Street****

You are receiving this notice because multiple residents in the Gold Street and Clement Street area have expressed concerns about limited visibility by drivers attempting to exit Gold Street southbound onto Silver Lane. In response to these concerns the Town of East Hartford is working with the Capitol Region Council of Governments to provide a **temporary** demonstration project that would improve traffic conditions and pedestrian safety along Silver Lane.

The **temporary** demonstration project will restrict traffic flow to allow vehicles only one-way northbound from Silver Lane onto Gold Street. Traffic control delineators and signage will be installed to prohibit vehicles from exiting Gold Street southbound onto Silver Lane (see enclosed Map 1). Access to Silver Lane will be from either Clement Road or Simmons Road (see enclosed Map 2). **The duration of this demonstration project will be from April to September 2021.**

The purpose of the demonstration project is to receive public feedback and assess whether a more permanent traffic solution is necessary. Pre-project and post-project surveys will be available to submit your comments. The pre-project survey is enclosed and can be submitted to the Town of East Hartford Development Department.

The temporary demonstration project was identified in the 2018 Silver Lane Revitalization Plan as a study area and is being funded by a grant from the Capitol Region Council of Governments. Please contact the Development Department at 860-291-7300 if you have any questions.
